Conquer The World With Quality**

**FK-140**

进 取 不 止

### **Basic Information**

Gross weight

**16000kg**

Max. roll angle

**90°**

Main traction force

**90KN**

Blade length

**3962mm**

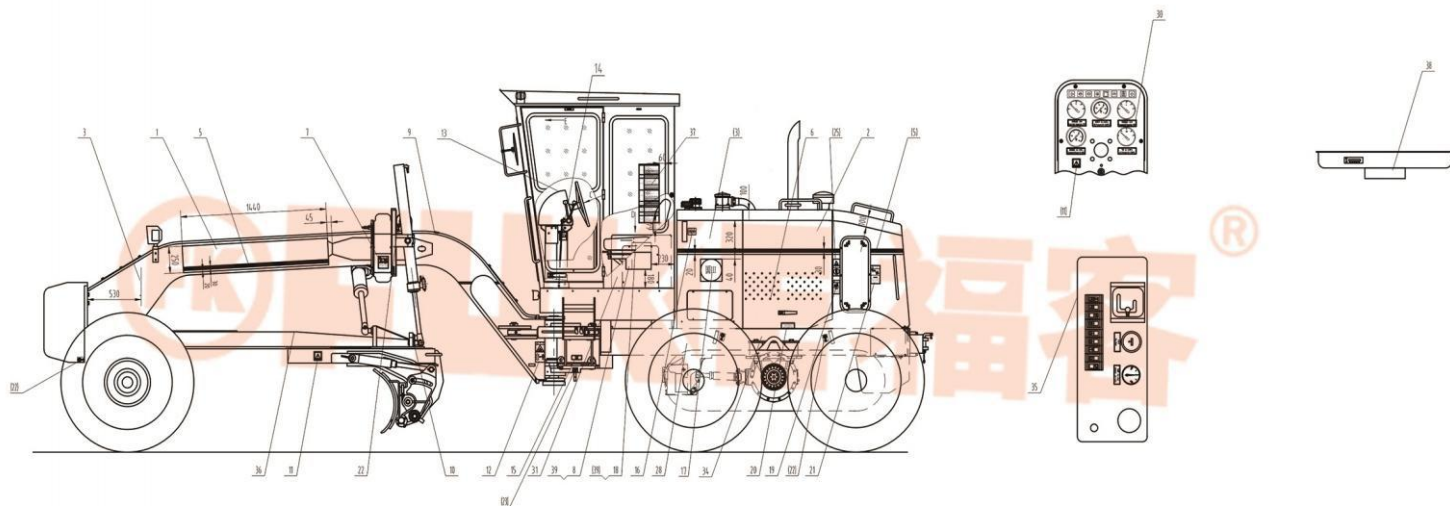

Rated power

**154KW**

Rated rotary speed

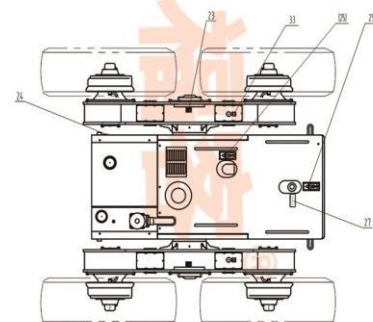

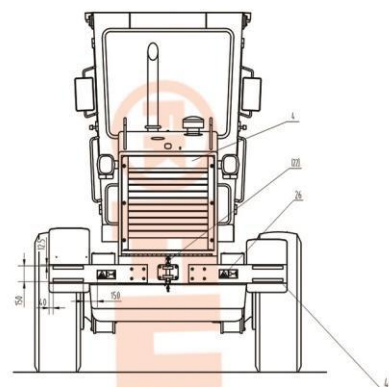

**2200rpm**

# Outline

## Technical Specification

|                                                        |                   |
|--------------------------------------------------------|-------------------|
| Gross weight                                           | 16000 Kg          |
| Engine model                                           | Yuchai            |
| Rated power                                            | 154/210 KW/HP     |
| Rated speed                                            | 2200 R/MIN        |
| Main traction force                                    | 90 kn             |
| Blade cutting force                                    | 7700 Kg           |
| Dimensions (length X width X height)                   | 9250x2600x3330 mm |
| Wheelbase Front and rear axle wheelbase                | 6340 mm           |
| Wheelbase of middle and rear axle                      | 1554 mm           |
| Left and right track                                   | 2250 mm           |
| Steering system Maximum steering angle of front wheels | 45 (°)            |
| Maximum articulated steering angle                     | 20 (°)            |
| Minimum turning radius                                 | 8100 mm           |
| Blade length                                           | 3962 mm           |
| Blade string height                                    | 610 mm            |
| Maximum roll angle                                     | 90 (°)            |
| Rotation angle                                         | 360 (°)           |
| Variation range of shovel angle                        | 30~65 (°)         |
| Maximum lifting height                                 | 455 mm            |
| Maximum penetration depth                              | 495 mm            |

\*We follows the principle of continuous improvement Product performance parameters will be partially changed due to technical improvements without prior notice.
